this research aims to investigate the role or roles of the physical jerusalem temple within the second temple jewish writings in terms of whether the physical temple has any role to play in relation to the pivot point in eschatology the pivot point or fulcrum in time refers to the end of the exile and perhaps the beginning of the eschaton the exile may be theological but many second temple jewish texts address the physical gathering of the children of israel to the land of israel i e from physical exile even if the text also addresses a theological exile thus making the return a complete ingathering of the children of israel the passages of these ancient texts have been analysed before but never with this lens looking to see if there is any role the jerusalem temple performs in expected eschatological events will at least allow an answer to be given which is better than never asking the question in the first place which has been the case until now this study produces results as the jerusalem temple has always been a place of great expectations

studying the new testament requires a determination to encounter this collection of writings on its own terms this classic introduction by charles b puskas revised with c michael robbins provides helpful guidance since the publication of the first edition which was in print for twenty years a host of new and diverse cultural historical social scientific socio rhetorical narrative textual and contextual studies has been examined attentive also to the positive reviews of the first edition the authors retain the original tripartite arrangement on 1 the world of the new testament 2 interpreting the new testament and 3 jesus and early christianity this volume supplies readers with pertinent primary and secondary material

the new edition carries on a genuine effort to be nonsectarian and although it is more of a critical introduction than a general survey it is recommended to midlevel college and seminary students and to anyone who wants to be better informed about the new testament

schwarz guides readers through the range of opinions on the subject of the future telling how readers understanding of eschatology has developed and laying out the factors that must be considered when speaking meaningfully about the christian hope in the 21st century he surveys the teachings about the future in the old and new testaments and addresses the views of christian and secular thinkers throughout history

exploring what the early english protestants came to believe about the afterlife and how they arrived at their positions this much needed book fills a gap in the scholarly literature in surveying the authorised doctrinal works of the english church through the reformation period the progress of eschatological thinking is traced from the earliest days of change to the solidification of the formularies which remain binding across the worldwide anglican church today fresh observations are made on some well known texts such as the books of common prayer articles of religion and official tudor homilies and these are complemented by commentary on surprisingly understudied documents of the period including primers catechisms and the paratexts of the early printed english bibles the result is a fascinating study of the english reformers navigation past both roman catholic and radical anabaptist beliefs and it shows that their arrival at a relatively barren destination was due in part to a complete switch in theological priorities and in part to a fear of the implications of formally adopting some of the highly contested views establishment eschatology will prove to be an important resource for students and scholars of england s early modern religious and cultural history

werner g jeanrond approaches hope from the perspective of a theology of love he distinguishes human hopes from the hope which god has given to humanity jeanrond discusses the challenges of a christian praxis of hope in today s world and invites both a new conversation on a future with god and a reassessment of the potential of hope for christian discipleship jeanrond argues that memory is important for hope and that nobody can hope for herself or himself alone hope thus invites personal communal political and global participation and transformation moreover it gives rise to a powerful constellation of symbolic expressions including judgement heaven hell and purgatory that call for ongoing interpretation ranging from radical hope and the hope for salvation to the power of judgment and contemporary fears about the future of nations humankind and the world jeanrond s latest work offers a theological contribution to the

multireligious conversation on hope death and the human future in our universe

witherington and myers provide a much needed introduction to the ancient art of persuasion and its use within the various new testament documents more than just an exploration of the use of the ancient rhetorical tools and devices this guide introduces the reader to all that went into convincing an audience about some subject witherington and myers make the case that rhetorical criticism is a more fruitful approach to the nt epistles than the oft employed approaches of literary and discourse criticism familiarity with the art of rhetoric also helps the reader explore non epistolary genres in addition to the general introduction to rhetorical criticism the book guides readers through the many and varied uses of rhetoric in most nt documents not only telling readers about rhetoric in the nt but showing them the way it was employed this brief guide book is intended to provide the reader with an entrance into understanding the rhetorical analysis of various parts of the nt the value such studies bring for understanding what is being proclaimed and defended in the nt and how christ is presented in ways that would be considered persuasive in antiquity from the introduction

this title was first published in 2000 hope in barth s eschatology presents a critical investigation and survey of karl barth s writings particularly his church dogmatics iv 3 in order to locate the character and nature of hope within barth s eschatology arguing that barth with his form of hope that refuses to shy away from the dark themes of the tragic vision could be seen to undermine certain tragic sensibilities necessary for a healthy account of hope john mcdowell locates barth within the context of larger traditions of theological thinking and influential accounts of christian hope examining the work of steiner mackinnon pannenbergh rahner moltmann and others addressing the relative neglect that barth commentators have paid to eschatological themes mcdowell maintains that to miss what barth is doing in his eschatology is to seriously misunderstand barth s broader theological sense this book offers a significant contribution to the ongoing task of understanding barth s theology whilst developing a way of reading hope and eschatology that ultimately places some critical questions at barth s door

investigating a range of eschatological ideologies this volume explores the connection between notions of sacred space and time in jewish christian and muslim understandings of jerusalem the recognition of jerusalem as a holy city both unites and divides judaism christianity and islam while these three religious traditions share a reverence for the same ancient city this veneration leads more often to tension and violence than to commonality and cooperation each of

these religions draws heavily from religious memory and eschatological prophecies and sees jerusalem as a site of past and future upheaval however the distinctions in their visions imbue jerusalem with meanings that reinforce conflicting and contested ideologies offering multiple analyses of religious interpretations of the city and its sacred sites this volume explores these divergent visions of the remembered and anticipated jerusalem
